

Dear parents and carers,

Nova Training, in line with all education establishments, are working incredibly hard to ensure that your son/daughter can access learning whilst school and education closures are in place.

Our teaching teams have responded brilliantly in this time of crisis and have created virtual on-line classrooms and paper-based resources to both engage and challenge learners, bringing the classroom to life in the home environment.

Nova Training receives government funding for education and has strict rules to comply with regarding evidencing that learning is taking place. It is therefore vitally important that every learner engages with us during this period and completes the work that is set for them.

Where learners do not engage (unless for reasons of ill health), we may have no alternative but to exit them from programme, which of course may also have an impact on any child benefits or universal credit claims that are dependent on your child remaining in education.

If you or your son/daughter are experiencing difficulty in gaining access to our on line learning platform and would like to speak directly to one of the teaching team then please make contact immediately via your Nova Centre main telephone number (calls are diverted to Centre Managers) or email us at info@novatraining.co.uk and one of the team will get back to you.

Stay safe and kind regards,

Nova Training
